

Real Procedures - Real Patients

www.lowbackpain.tv

Lowbackpain.tv has been developed to allow patients and healthcare professionals view the latest available diagnostic and interventional treatments for low back and other spinal pain.

Right now log onto **www.lowbackpain.tv** and for a small fee* watch interventional pain physicians performing *real procedures on real patients*. Making use of the latest in full screen video streaming technology, **Lowbackpain.tv** allows you to *watch, discover and learn* about how back pain can be diagnosed and managed with videos demonstrating interventional clinical procedures and patient case stories.

20 videos available to choose from ~4 to 35 minutes. Each video 'clip' or 'episode' is accompanied by a detailed fact sheet that provides additional information and discussion. Use the **Areas of Pain** guide to also help find videos of the relevant procedures.
